

Client Management Strategies for Retention & Growth

INTRODUCTION

- This Client Management Strategies for Retention & Growth training course, the customer centricity has always been a desirable characteristic in Business. Still, in an age where switching is friction-free, and all customer experiences are instantaneously shared around the world, it has now become a "Mission-Critical" necessity.
- In an increasingly competitive and Social world, retaining clients is a smart business. It has been estimated that it costs five times more to get a new customer than to keep an existing one. Moreover, giving your current customers excellent (or poor) experiences is of critical importance because of the rise of Social Media. Consequently, it is essential that you have a client management strategy for retention & growth. Clients expect their suppliers to become trusted advisers.
- This training course shows how putting the client rather than services first can yield improved results in terms of client retention (and consequently, profits). It stresses the importance of having highly engaged employees and applying the best marketing and business development practices in a highly competitive and dynamic marketplace. It will also introduce you to our unique "Client Management Model" which has been designed to suit the specific needs of the organisations in the Europe, Middle East and Africa (EMEA).

This training course will highlight:

- The Economic Case for Client Retention
- The Reputational Case for Client Retention
