

# Preparing Financial Statements and the Annual Report

## Why Attend

- Financial statements and the annual report are key communication channels between companies and their different stakeholders. By attending this course, you will be able to prepare financial statements as per the International Financial Reporting Standards (IFRS) which will allow you to maintain your company's financial reporting transparency and credibility.

## Course Methodology

- This course covers theoretical core topics in addition to introducing Excel for the preparation of financial statements. It also features the study of real life cases and presentations by participants.

## Course Objectives

By the end of the course, participants will be able to:

- Explain each part of the accounting cycle
- Design effective chart of accounts
- Perform accounting adjustments including deferrals and accruals
- Create trial balance and adjusted trial balance
- Describe and map charts of accounts to the financial statements
- Prepare and present income statements, balance sheets, and cash flow statements
- Formulate notes to the financial statements

## Target Audience
