

Advanced Contracts Management

INTRODUCTION

- This Advanced Contracts Management training course covers the contracting process from contract award, through planning and management to contract close-out and resolution of disputes. The intention is to develop a delegate's existing skills in a wide range of contract management situations, and to allow participants to have an awareness of practices in many business sectors including construction, petroleum, engineering and other industries.

This training course is designed to:

- Explore the advanced skills and practices to enhance performance in contract development and management
- Enable participants to practice and develop their contract management skills
- Help participants to begin immediate implementation of the steps needed to create maximum total value for their organization

PROGRAMME OBJECTIVES

- Select appropriate type and form of contracts for different situations
- Understand the legal framework in which contract management takes place
- Understand the contract complexities that need managing
- Explain the practical steps in obtaining and analysing performance data
- Be more effective in contract management activities
- Anticipate problems and manage risks
- Integrate contract management with contract needs
- Understand the best means of handling claims, disputes and performance issues

WHO SHOULD ATTEND?

This intensive 5 day training course is suitable for experienced functional managers and staff involved in roles such as:

- Contract Management
- Project Management
- Design Management
- Construction Management
- Procurement Management
- Commercial Management
- Finance Management
- and all others who are involved in the acquisition of materials or equipment, or the management of suppliers and contractors delivering services.

TRAINING METHODOLOGY

- The Advanced Contracts Management training course will include a range of lively and interactive training methods, including exercises, role plays, case studies, practice sessions and group discussions. The learning experience will be grounded on instructor-led presentations that highlight key issues to focus on, and supported by a reference manual containing examples of best practice. Discussions will enable participants to share their own experiences with the rest of the group.

PROGRAMME SUMMARY

- This training course covers the process from contract award, through planning and management to close out and resolution of claims disputes. The intention is to further improve current skills with application to a wide range of contractual situations, and to allow participants to have an awareness of practices which may add value to their own situations.
