

Leadership & Strategic Thinking in the Oil, Gas & Petrochemicals Industry

INTRODUCTION

- This Leadership & Strategic Thinking in the Oil, Gas & Petrochemicals Industry training course has been designed specifically for experienced individuals wanting to develop these skills within the increasingly complex and fast-changing oil, gas & petrochemical industry. This training course will deliver a structured framework for identifying and responding to new opportunities. It enables the participants to respond to the challenge of linking strategies to profitable growth objectives within these 3 closely integrated sectors.
- The global oil, gas, and petrochemical business is undergoing significant change in all dimensions – supply/demand balance, competition, technologies, organisational structures, government policies. It is, therefore, imperative for all business leaders to be able to deal with all dimensions of change and successfully navigate the evolving risk landscape to become the top performers of tomorrow.

This training course will highlight:

- The changing dynamics of the oil, gas and petrochemical industry
- Best practice in analysing requirements for sustained success
- The latest thinking in theory and practice of leadership
- Driving and leading strategic change in this business
- Guidelines on the practical application of the training course

OBJECTIVES

By the end of this training course, participants will be able to:

- Appreciate and understand each of the 3 dimensions of the training course: (i) oil, gas and petrochemical trends, (ii) leadership, (iii) strategic thinking
- Develop action plans that link strategy to achieving and sustaining profitable growth
- Evaluate, select and apply key strategic planning frameworks
- Improve leadership skills to create a systematic approach to business analysis and strategy execution
- Identify priorities for continued personal and team development

ORGANISATIONAL IMPACT

In sending the participants to this training course, the organisation will gain the following benefits:

- Improved leadership performance at all management levels
- The greater commitment of teams and individuals to achieving goals
- More rapid reaction to changes in the business environment
- Closer alignment of strategic and operational activities
- More cohesive teamwork across different organisational functions
- An improved planning approach that will sustain profitable growth

PERSONAL IMPACT

In attending this training course, the participants will gain the following benefits:

- Familiarisation with state-of-the-art leadership thinking
- Practical ideas for developing and aligning your teams
- Making a more effective contribution to strategic and operational planning
- Up-to-date understanding of leading trends in this business
- Greater confidence in dealing with strategic and operational risk
- Improved ability in identifying and managing change

WHO SHOULD ATTEND?

- This Leadership & Strategic Thinking in the Oil, Gas & Petrochemicals Industry training course will benefit professionals from any specialisation in their organisation who wish to improve their leadership skills and/or are involved in achieving and maximising profitable growth.

This training course is a suitably wide range of professionals but will significantly benefit:

- Strategic and Operational Planning Specialists
- Financial Managers and Financial Analysts
