

The Practical Leader

INTRODUCTION

- The Practical Team Leader training course will allow you to explore what you actually do hour by hour, day by day, week by week, month by month as a team leader. Other training courses will teach you the theory of leadership, concentrating on style, vision, mission and values. This training course will show you the practices you should adopt and the habits you should develop to succeed as a team leader.
- You may already know what good leaders do. You will hopefully have experienced good leadership in others, and you will also have encountered poor leadership. This training course will give you the confidence to do what you know is right in leading your team.

PROGRAMME OBJECTIVES

- Techniques to engage with and motivate employees

Each day of this training session will end by delegates completing their own record of what has been learned on the day and considering how the ideas might be transferred back to the workplace.

PROGRAMME SUMMARY
